FICTIONAL CASE - NOT A REAL PATIENT
Case: dev-03 | Document: urgent-note | Page: 1
Urgent clinic wrist assessment
Document date: 2025-03-08
The patient fell onto the left hand on 2025-03-07.
Assessment today: left wrist sprain.
Left wrist radiographs today showed no acute fracture.
Recorded plan: use the supplied wrist splint for comfort and return for the scheduled review.
The note ends after the plan.
