FICTIONAL CASE - NOT A REAL PATIENT
Case: holdout-03 | Document: postpartum-review | Page: 1
Postpartum review
Document date: 2025-05-20
Postpartum iron deficiency anemia was diagnosed on 2025-04-03.
The patient reports stopping ferrous sulfate on 2025-05-10 because of constipation.
Recorded plan today: discuss the blood count and medication history at the scheduled clinic review.
The allergy history was not taken at this contact.
