FICTIONAL CASE - NOT A REAL PATIENT
Case: holdout-08 | Document: urology-review | Page: 1
Urology follow-up
Document date: 2025-09-12
The patient reports passing a small stone on 2025-09-10; composition has not been tested.
The patient denies flank pain today.
Medication review today: no analgesics currently being taken.
Allergies reviewed today: no known drug allergies.
Recorded plan: bring the collected fragment for the already requested stone analysis.
